

Requested Council Meeting Date: July 16, 2018
Council Bill No. 2018-130

Item: Amendment 2 to Work Authorization Number AND-DR2-PAP7-2-Additional Services with Anderson Engineering, Inc. for Construction Phase Services for Sidewalk, Curb & Gutter, and Street Projects in the Recovery Area.

Originating Department: Public Works – Engineering

Attachments: 1) Project Location Map
2) Amendment 2 to Work Authorization AND-DR2-PAP7-2-Additional Services
3) Council Bill No. 2018-130

Public Works Director:	David Hertzberg	Date:
Planning, Development & Neighborhood Services Director	Troy Bolander	Date:
Finance Director:	Leslie Haase	Date:
City Attorney:	Peter C. Edwards	Date:
City Manager:	Sam L. Anselm	Date:

Recommended Action: Approval of Amendment 2 of Work Authorization Number AND-DR2-PAP7-2-Additional Services with Anderson Engineering, Inc. for the not to exceed amount of Eighty-Four Thousand Three Hundred Fifty and 00/100 Dollars (\$84,350.00) for Construction Services for Sidewalk, Curb & Gutter, and Street Projects in the Recovery Area funded with Community Development Block Grant-Disaster Recovery funds.

Background: In 2013 the City of Joplin Council reviewed and approved the “Joplin Community Phase II Recovery Plan”. City staff then worked with various consulting firms and contractors to complete many of the projects included in the plan approved by Council. Due to the large number of infrastructure projects and the scheduling challenges with environmental clearance, public involvement, construction coordination, etc. the City staff estimated the budgets conservatively to ensure completion of the projects ranked highest by City Council. It was anticipated that with the successful completion of various projects in the plan, funds that had been budgeted would become available for a continuation of the recovery plan by completing more surface projects. City staff, City consultants, and our contractors have completed many of the projects under budget and this has allowed a continuation of the original recovery plan projects.

Discussion: In October of 2016, City Council approved a contract with Anderson Engineering, Inc., for the design, bidding and construction management of all the prioritized Street, Sidewalk, Curb & Gutter, and Storm Water Projects in Anderson Engineering's portion of the Recovery Area. Then, on November 21, 2016, Council approved Work Authorization No. AND-DR2-PAP7-2-Additional Services, which added construction staking and material testing to Anderson Engineering's scope of work for only their then-funded projects. At that time, the list of Anderson's projects with sufficient construction funding did not include all of the prioritized projects previously identified. Now, however, after the successful completion of many projects under budget, the program has enough available funds to finance the construction of two more of the prioritized projects. This amendment to Anderson Engineering's Work Authorization extends these field services—construction staking and material testing—to these last two projects. The two projects are surface projects within the recovery area and are shown on the attached maps. The overall program is on schedule to be completed before the Fall of 2019 which is the overall CDBG-DR expenditure deadline. Amendment 1 incorporated the current fee schedule.

Recommendation: Staff recommends Approval of Amendment 2 to Work Authorization Number AND-DR2-PAP7-2-Additional Services with Anderson Engineering, Inc. for the not to exceed amount of Eighty-Four Thousand Three Hundred Fifty and 00/100 Dollars (\$84,350.00) for Construction Services for Sidewalk, Curb & Gutter, and Street Projects in the Recovery Area be approved on an emergency basis per Section 2.12 (6) of the Joplin City Charter.
