STAFF ANALYSIS

CONSISTENT WITH DEVELOPMENT POLICIES OF THE COMPREHENSIVE PLAN?

The request is partially consistent with the comprehensive plan. The future land use map shows this part of Michigan Avenue abutting the 20th St. bridge to be suitable for commercial activity for the part of the property North of 19th St. However, the southern portion of this parcel is shown to remain residential. This property is also located within the E. 20th St. development corridor, requiring those unique development requirements for any use on this site.

THE SUITABILITY OF THE SUBJECT PROPERTY FOR THE USES TO WHICH IT HAS BEEN RESTRICTED

The current zoning of R-1 is consistent with nearby parcels and suitable for this neighborhood. Residential development would be appropriate in this location. The future land use map does indicate that the northern portion of this property to remain low-density residential, and new homes have been built in this area. There is currently no structure on the site.

THE EXTENT THAT THE ZONING CHANGE WILL DETRIMENTALLY AFFECT NEARBY PROPERTY

The proposed zoning of C-1, designed for neighborhood-scale commercial uses, is suitable for a neighborhood setting, however, with no frontage on a collector or arterial street, this zoning district may generate traffic that is inappropriate for the local roads on which it has frontage, and on which patrons would use to access the site. To get to the site, patrons would be required to use Michigan Avenue or 19th Street, both of which currently have uses that generate very little traffic, mostly single-family residential.

The proposed zoning change will have a moderate impact on nearby property, though due to the development standards required by the 20th St. corridor, some of the impact may be mitigated. The zoning change would be consistent with zoning along the 20th Street corridor. However, with no frontage on that street, and looking at the streets on which it does have frontage, it is less consistent with the zoning along both Michigan Ave. and 19th St., which consist mostly of R-1 Single-family residential.

DISCUSSION

While the future land use map does indicate that the southern portion of this property be used for commercial purposes, that map was created before the grade separation at 20th Street and Michigan Avenue. Without that frontage on 20th Street, commercial uses at that property are less appropriate given that traffic would be routed through a residential neighborhood on streets classified as local. However, traffic generated by a mini-storage, as well as other uses in C-1, is relatively low and C-1 Neighborhood Commercial is a district designed to provide neighborhood level services and be embedded within a neighborhood environment.
It should also be noted that mini-storage facilities are only permitted in the C-1 District with a special-use permit. Should this rezoning request pass, the applicant will still need to acquire a special-use permit in order to operate a mini-storage.

This property is subject to the City of Joplin’s Zoning Code requirements, including the 20th St. Corridor Development Standards.

*Staff recommends approval of Case 043-19 on the condition that the property be rezoned in accordance with the Future Land Use Plan; that part of the property South of 19th St. be rezoned to C-1 Neighborhood Commercial, while that part North remain R-1 Single-family Residential.*
