Yes.

DISCUSSION:

The final plat approval is for Eagles Edge Subdivision located in Wildwood Ranch. The property is currently outside of the city limits; however, the subdivision will be annexed into the city in phases as the neighborhood is constructed. This subdivision will be the first 20 lots of the total planned 152 lots, zoned R-1 Single-family Residential upon annexation. The Final Plat does require City Council approval. This plat meets the requirements of the subdivision regulations.

James and Lance Ledford are seeking a 20-lot final plat for a planned 152-lot subdivision for new single-family dwelling development located between W. Wildwood Ranch Pkwy. and W. 32nd St. The applicant will be extending both of those streets the length of the development as well as other utilities. The applicant is providing access through the development with streets going east to west along with sidewalk access across, as well as a stub out to the west for cross-access to future development. All lots meet the minimum lot size requirements for area and width. There will be stormwater facilities provided through the development to direct water flow to a detention area in the Northwest corner of the development.
