Construction on a home on three lots where the existing easement cuts through the middle, making it difficult to locate a structure outside of the easement while still maintaining the 25-foot setbacks for the front and backyards. In conjunction with neighbors to the North, a new drainage ditch has been constructed on the rear of the lots that is out of the way of any potential structures and has been approved by the City’s Engineering Department.

PLANNING & ZONING COMMISSION TESTIMONY:
Gary Rose, 4699 SE 60th St., Galena, KS. Here to see if the drainage ditch could be moved off Lots 4-10 at Callaway Ridge for the purpose of building residential homes. He also stated that they want to move it straight back to the west.

Mr. Kimble asked if the ditch was underground or a ditch above ground? Will it have any bearing to the property to the west?

Mr. Rose stated it was a ditch above ground. There will not be any bearing on the properties to the west.
