**Executive Summary**

**AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)**

1. **Introduction**

The FY 2019 Action Plan identifies projects and activities meant to address the needs and goals of the 2015-2019 Consolidated Plan. The plan guides the direction of the CDBG and HOME programs for the next fiscal year. This is the last Action Plan under the current consolidated plan.

2. **Summarize the objectives and outcomes identified in the Plan**

The plan lays out a number of projects meant to address the needs identified in the most recent Consolidated Plan. These projects include:

- Neighborhood Revitalization Activities (Infrastructure Improvements, specifically sidewalks)
- Public Services Activities (HMIS funding, Coordinated Entry Program)
- Housing Rehabilitation Activities
- CHDO New Construction
- Neighborhood Plan for East Town neighborhood

Maps showing the Geographic Extent of proposed activities is included in Attachment B.
3. Evaluation of past performance

The city’s past programs have focused on community needs that continue to exist including aging housing and infrastructure, and neighborhood and public improvements. The programs the City has used to address these needs have been well received by residents and neighborhood organizations. The City of Joplin will continue to meet its identified needs and goals through housing, infrastructure and public service projects. In this final year of the 2015-2019 Consolidated Plan the City will emphasize increasing the pipeline of affordable housing starts.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

The participation process for developing this One Year Action Plan included:

- Two advertised public meetings (January 17, 2019 and February 28, 2018 at Joplin City Hall)
- Two 30-day public comment period (January 18 - February 18, 2019 & March – April 1, 2019)
- Meetings with community partners and stakeholders to discuss previous projects, community needs, and potential for additional partnerships.
- Public Hearing at the April 15, 2018 City Council Meeting; Council approved the plan via resolution at this meeting.

Attendance registers and proof of public notice are included in Attachment A.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

One emailed public comment was for CDBG façade grants to be used for professional services to avoid Davis Bacon wages.

6. Summary of comments or views not accepted and the reasons for not accepting them

Comment on CDBG Façade Grants was rejected for Davis Bacon cannot be avoided on a Federalized project.
7. Summary
PR-05 Lead & Responsible Agencies – 91.200(b)

1. Agency/entity responsible for preparing/administering the Consolidated Plan

Describe the agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

602 S. Main St. Joplin, MO 64801

(417) 624-0820 ext. 510
AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

Consultation on the development of the plan began in January 2019 through discussions with current participating sub-recipients. The plan has been further developed through public meetings and public comment.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The City of Joplin's Public Housing Authority is a separate entity who develops their own plans and receives their own funding. However, the City does utilize the Housing Authority as a valuable resource in developing plans and identifying at-needs populations. One such growing population in the city is the elderly. Our Housing Authority has identified this as a need area and we will be partnering with them to develop strategies by which to remedy this and other problems. City staff and Public Housing Authority staff serve on the Community Housing Resource Board to ensure regular contact and awareness of activities performed by both entities.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of Joplin assists the area's Homeless Coalition with the administration of their HMIS system through reimbursement through an annual public service grant. Furthermore, City department staff serve on the Homeless Coalition Board and committees. The City also serves as a consultant for the Coalition and will work with the Coalition to develop strategies for combating homelessness. In the development of the Consolidated Plan, we met with Homeless Coalition members to discuss the homeless needs of the area. The Community Development Planner has been added to the Homeless Coalition Board.

The City partially funds the Coordinated Entry Program, implemented by the Homeless Coalition, through Public Service Grants. The group sends monthly reports to the City of Joplin, and their progress in the program is promising. In 2019, the Housing Connect program has completed 53 Assessments, and housed 25 individuals or families.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate
outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City of Joplin serves as an environmental oversight body for all of the Continuum of Care Organizations Operating in our area; we do not have any control over the allocation of ESG funds. The City primary capacity in allocation of ESG funds and evaluating projects is through Homeless Coalition board membership including City staff and in consultation in developing plans. However, we do provide CDBG funds towards the reimbursement of the Homeless Coalition’s HMIS use. The system allows the Coalition to identify the shortfalls in our service of homeless populations.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdiction’s consultations with housing, social service agencies and other entities
Table 2 – Agencies, groups, organizations who participated

Joplin Area Habitat for Humanity is a valuable housing resource for the City of Joplin; the City has partnered with them numerous times in the past to provide housing opportunities for low-moderate income families. With their housing expertise, JAHFH was consulted in regards to housing needs of the area specifically. They provided guidance on housing and market needs.
<table>

<tr>
<th>Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?</th>
<th>One Joplin is a coalition, collaborative effort to bring together service agencies from across the Joplin Area. The effort currently has three work groups, which focus on health, human services, and poverty. The City has representatives on all three teams, but the Community Development Division works primarily with the Poverty work team. The Poverty team has afforded the opportunity to discuss and design methods to &quot;move the needle&quot; on poverty. The group has provided input on the proposed Action Plan, and will continue to help guide program resources where they are needed.</th>

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation
Summarize citizen participation process and how it impacted goal-setting

The first public hearing on the FY2019 Action Plan was held at the Joplin City Hall on January 17, 2019. Public notice was published within the Joplin Globe on January 3, 2019 and on www.joplinmo.org.

The second public hearing on the FY2019 Action Plan was held in the Fifth Floor Study of City Hall on February 13, 2019 from 5:00 pm - 6:00 pm. Public notice was published in the Joplin Globe on February 13, 2018.

Public comments on the draft plan was accepted through two comment periods, January 18th-February 18th and March 1st – April 1st, 2019.

The final Action Plan was presented to Joplin City Council on April 15, 2019.

The May 2020 notice of major amendment was posted in the publication of record, The Joplin Globe, on May 5th, 2020. A five-day public comment period commenced twenty-four hours from posting on May 6th – May 11th, 2020.

The major amendment was presented to Joplin City Council on May 18, 2020.

The December 2020 notice of second major amendment was posted in the publication of record, The Joplin Globe, on November 22nd, 2020. A five-day public comment period commenced twenty-four hours from posting on November 23rd – November 27th, 2020.

The major amendment was presented to Joplin City Council on December 21, 2020.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City intends to encourage use of private financing with HOME funds in the mix to increase the provision of affordable housing. More program options in offering CHDO homebuyer assistance, in addition to subsidizing construction, can help incentivize homebuilders to adjust to program changes and help difficult to qualify homebuyers. Finding qualifying homebuyers has been a challenge for the program. Partial subsidy of construction and homebuyer assistance will spare more funds for other projects, while simultaneously improving a significant difficulty of program participants by qualifying homebuyers. The Community Development office is also working to clean title on County owned lots to assist in the provision of buildable lots for affordable housing developers.

Annual Action Plan 22
Another significant source of funding is the City of Joplin's CDBG-DR Round I and II Allocations. Current information on the status of projects and funding can be found at: http://mo-joplin-cdbgdr.civicplus.com/. However, the City of Joplin's Entitlement and HOME programs do not directly work in the Disaster Area so as to focus on neighborhood redevelopment and avoid duplication of efforts.

Following the Joplin Tornado, there was a large amount of non-federal assistance in the form of donated dollars to area housing non-profits. Non-profits that work with the Joplin HOME program used these dollars produce a number of HOME eligible projects that were claimed as HOME match. Currently the City of Joplin has a large match credit balance of over $1.6 million. The City continues to earn a limited amount of HOME match through waived permits and parts of HOME projects that are not Federally funded, but relies on match credit to ensure that the program meets match requirements.
If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City is examining change in policy to donate lots to non-profits or other stakeholders for projects or development. Currently the City is identifying a hand-full of sites for this purpose. There are many City lots located in target areas for community development. The City is cleaning titles for the purpose of housing. The City is also coordinating with the County to acquire lots in the County Trust.

Discussion

Using the City's annual allocations over the course of the next year, the City's goal will be to develop and revitalize the low-moderate income areas of the community. The primary area of focus for the Action Plan reporting period is the East Town Neighborhood. The City will continue to fund infrastructure projects and encourage its subrecipients to direct housing funding to the neighborhood until the end of this Consolidated Plan.

The City of Joplin HOME program largely benefits the Low/Moderate and low-income household. Extremely low-income household are difficult to qualify for homeownership and very few if any of the homeowner rehab applicants fall into the extremely low-income category. When an extremely low-income household applies to the homeowner rehab program, they are prioritized based on need. Most extremely low-income household benefit is achieved through the CDBG public service activities, specifically homelessness prevention. In an average year, approximately 200 households are served through coordinated entry and through the Housing Connect program are sheltered or permanently housed.

### Goal Descriptions

Annual Action Plan 26
<table>
<thead>
<tr>
<th></th>
<th>Goal Name</th>
<th>Goal Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Provide safe, decent affordable housing</td>
<td>New Construction and rehabilitation projects to be completed through coordination with local non-profit organizations such as Habitat for Humanity and Economic Security Corporation in the East Town Neighborhood, a Low-Mod area. Due to the low property values of the area and low area median income, homeownership is difficult to qualify for any but low-income households. If the goal of 6 new homeowner households to benefit, it is likely that 5 will be low/moderate income and hopefully at least one be a low-income household.</td>
</tr>
<tr>
<td>2</td>
<td>Improve Infrastructure and Encourage Economic Dev.</td>
<td>Providing for the repair and rehabilitation of infrastructure in the East Town Neighborhood. These infrastructure projects will seek to add sidewalks, improve road conditions, and repair and add sanitary sewer systems. Furthermore, there is a planned economic development activity this action plan to create/retain jobs.</td>
</tr>
<tr>
<td>3</td>
<td>Improve Livelihood through Public Service Activity</td>
<td>Assisting the goals of the Homeless Coalition with the purpose of reducing homelessness though reimbursement for the use of their HMIS system and opening dialogues through reimbursement of the Community Housing Resource Board. In addition, funding will be provided to the Homeless Coalition for the Continuance of their Coordinated Entry Program and neighborhood clean-up will receive an allocation to maintain that activity.</td>

Table 7 - Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Allocation priorities were made on the basis of public input, strategic plan needs and goals, and previous project funding and successes. The allocation is based around the increasing demands for affordable housing and infrastructure improvements in the Joplin area. In this Action Plan public service activities are prioritized by need and the number of organizations benefiting from a single activity.

Amended: Special Allocation of CDBG-CV will be prioritized to address the economic and health impact of the Covid-19 pandemic. Additional funds will be used to address the increase in need for public services and provide economic relief due to businesses within the jurisdiction of the City of Joplin.

Using Waiver made available in the April 10, 2020 Joh Gibbs Memo “Availability of Waivers and Suspension of the HOME Program Requirements in Response to COVID-19 Pandemic” additional HOME admin funds will be allocated up to 20% of the grant.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City has several census tracts that are identified as to having 51% Low-Moderate Income households. These census tracts are 101, 106, 108, and 110. Public improvements for FY 2018 will be concentrated in tract 101, more specifically in the East Town neighborhood. Utilizing HOME funds, several housing projects will be in this area to make more comprehensive improvements within the tract. Additional HOME projects will be located within the Consortia area.

Table 8 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

By concentrating a large portion of our funds on a specific area, we can make a more profound impact. East Town is an area that has been identified as high need by city staff and residents who currently reside in the area.

Discussion

The City of Joplin's target areas are those areas of the City that are generally considered to be low-income or difficult to develop. The City is also coordinating the efforts of area non-profits in the same target area both in terms of housing and services. Non-entitlement funded community projects are underway and are meant to stabilize the target area on a long-term horizon.

Discussion

The yearly goal for the City of Joplin is to be able to provide housing assistance to as many families as possible. Through the construction of new and rehabilitation of old housing inventory, we hope to further affordable housing for citizens.
AP-60 Public Housing – 91.220(h)

Introduction

The Joplin Public Housing Authority currently manages 168 public housing units and oversees 435 Section 8 Vouchers. The Housing Authority upkeeps their units to an exceptional standard and ensures Section 8 landlord's compliance. The City of Joplin does not directly oversee or manage the Housing Authority.

Actions planned during the next year to address the needs to public housing

The Joplin Public Housing Authority has identified the following goals during the upcoming year: expand the supply of affordable housing; reduce public housing vacancies; leverage private or other public funds to create additional housing opportunities; improve the quality of affordable housing; increase customer satisfaction; conduct outreach efforts to potential voucher landlords; continue to implement voucher homeownership program; promotion of self-sufficiency of residents. The City has recently entered into agreement with Economic Security Corporation for $4,000,000.00 of CDBG-DR assistance to construct very-low income elderly bungalows, that will be accepting vouchers administered by the public housing authority.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

One of the major goals of the housing authority is the promotion of self-sufficiency for their residents. While there are no formal programs for home ownership or assistance within the housing authority, residents do have resources available to them through the City or other area non-profits. The Housing Authority and the Community Development Office hope to refer one to two Housing Authority residents to become homeowners through CHDO activities within the next reporting period. This intention to provide CR homebuyer assistance as part of CHDO activity underwriting should help qualify least-well off public housing residents that are determined to be good candidates for homeownership. The One Joplin Coalition is currently piloting a landlord/tenant education program. The Public Housing Authority has been invited to refer tenants to training.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The Housing Authority is not designated as troubled.

Discussion

The Joplin Public Housing Authority Director meets quarterly with the Community Development Office to inform both organization on ongoing operations. This is achieved through both the Community Development Planner and the Public Housing Director serving on the Community Housing Resource Board.
AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The Homeless Coalition has been making improvements to permanently house the homeless and address special needs annually. The number assisted has increased, however the last point-in-time count has shown an increase in the unsheltered. Upon completion of follow-up survey, the coalition found that an unusual number of homeless are not from the area as compared to previous years.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Homeless Coalition, which is composed of Joplin area homeless shelter providers, requested funds through the public service grant process to provide assistance with the maintenance of the Homeless Management Information System (HMIS). The system is required by HUD to receive ESG assistance. Through use of the system, the coalition was successful in obtaining funding from ESG program in the previous years. The subcommittee decided that due to the importance of this system, it should be funded on an annual basis, rather than making the coalition re-apply through the public service competition each year. The Coordinated Entry Program is the point of contact with the homeless in assessing need. Due to the importance of this service, the program is also to be funded annually.

The Homeless Coalition provided the following information regarding their services:

Prevention

Emergency Shelter

Transitional Housing

Rapid Re-Housing

Permanent Subsidized Supportive Housing

Permeant Housing – Rental and Homeownership

Coordinated Entry assesses homeless need and refers homeless or at risk homeless to appropriate service providers.

Notes: The Homeless Coalition’s outreach efforts will include a variety of strategies to reach people who are living unsheltered. One method will be to host two Project Homeless Connect events per year. (January and July) The events will be advertised through local social service agencies and meal sites. They are set up as a one stop shop event offering information, resources, giveaways, and services on site. All people attending Project Homeless Connect events will be surveyed. The survey collects information about
length of homelessness, reasons for homelessness, and tracks a number of indicators.

Outreach also happens once per year when the Point-In-Time count is conducted. (January) Teams of volunteers divide up the communities and known locations in search of people living unsheltered. Volunteers survey people they encounter and offer resource information.

**Addressing the emergency shelter and transitional housing needs of homeless persons**

As part of the Continuum of Care the Homeless Coalition regularly analyses gaps in homeless need and services. One area needing increased level of service is emergency shelter and transitional housing. To that end Watered Gardens (Coalition Shelter) is establishing a new facility in the former Washington Elementary School for women with children.

The current emergency shelter providers are:

- Restoration Life, Souls Harbor, Watered Gardens, Carthage Crisis Center

The current transitional housing providers are:

- The H.O.U.S.E. Inc., Economic Security Corporation, Lafayette House, Carthage Crisis Center

Homeless persons receive referral to providers through Coordinated Entry.

**Helping homeless persons** (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

As part of the established Continuum of Care, the Homeless Coalition employs a Point in Time count, and a Housing Inventory Count to specially identify and house/shelter the chronically homeless, families with children, veterans and unaccompanied youth. Veterans, families with children and unaccompanied youth are tracked monthly and prioritized.

**The Homeless Coalition established committees to address chronically homeless, families with children, veterans and unaccompanied youth:**

- Services for Homeless Veterans
- Monitoring Committee
- Prioritization Committee

Economic Security Corporation also operates the Chronically Homeless Program as part of the Permeant
Subsidized Supportive Service implementation of the Homeless Coalition.

Notes: The Homeless Coalition maintains a Coordinated Entry process abiding by Policy 5.00 Order of Priority for Permanent Supportive Housing Projects which outlines how persons experiencing homelessness will be prioritized for housing services in our community. The policy states that the most vulnerable will be prioritized first which would include the chronically homeless.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Coalition Members and area service providers refer at risk of homelessness households to Coordinated Entry. Area service providers include non-profit thrift stores, local hospitals, MO Career Center, Veterans Affairs, the Joplin Health Department and Community Development Office, Preferred Family Healthcare providers and Legal Aid of Western Missouri.

Current homeless prevention service providers include Catholic Charities, Economic Security Corporation, Legal Aid, Bright School District, Futures, Children’s Haven, Lafayette House, the Salvation Army and Crosslines.

Legal Aid is instrumental in providing legal services to prevent homelessness due to eviction.

Discussion

The Homeless Coalition has made great strides in their services and programming since the implementation of the Housing Connect Program. The Coalition has better input from Coalition members and the community at large. In their partnership with the City and area service providers, particular focus will be placed on prevention activities. Specifically, through an existing coalition of area non-profits known as One Joplin, the City will work with area non-profit and for-profit service providers to ensure that persons are not discharged or released into vulnerable situations. Potential partners include the Housing Authority, Freeman Hospital, Mercy Hospital, and Ozark Center.

Non-housing, special needs populations are at the most risk of becoming homeless. In the upcoming year, the City will provide funding towards the Homeless Coalition’s HMIS and Coordinated Entry Programs. Coordinated Entry will help those who are risk of becoming homeless be diverted into stable housing or referred to proper service providers.
AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The City has made some progress on objectives laid out in its Analysis of Impediments to Fair Housing. The City is evaluating the current Surplus Land Policy to make available to affordable housing developers and non-profits lands currently in possession of the City. In addition, the City will soon be updating its zoning code to be more in line with the 2012 Comprehensive Plan. Code updates will be addressing setback, minimum lot size and minimum housing footprint requirements of the existing code to increase affordable housing supply in older affordable neighborhoods, where old recorded lots make new construction difficult to comply with current code. The Joplin Public Housing Authority has had difficulty in landlords accepting housing choice vouchers. The City of Joplin has entered into agreement with Economic Security Corporation for $4,000,000 of CDBG-DR assistance in the construction of low-income elderly bungalows. This development will be accepting vouchers administered by the Public Housing Authority.

Discussion:

The City of Joplin has updated the Citizen Participation Plan to be compliant with the implementation of the Assessment of Fair Housing. While implementation of the Assessment of Fair Housing has been delayed by the Department of Housing and Urban Development, and likely not going to be a requirement of the 2020 Joplin Consolidated Plan, the City of Joplin and the Joplin Public Housing Authority are prepared to collaborate when the requirement for the assessment is enforced.
AP-85 Other Actions – 91.220(k)

Introduction:

Actions planned to address obstacles to meeting underserved needs

FY2019 activities that will address underserved needs of the community will consist of the following Public Service activities. The City of Joplin will help assist with homeless needs (HMIS Reimbursement and Coordinated Entry Program).

Actions planned to foster and maintain affordable housing

The housing activities described earlier (homeowner rehabilitation and CHDO activities) will all foster and maintain affordable housing in the area for a total of approximately 6 affordable units assisted. Furthermore, the City is proactively fostering the use of affordable housing tools to increase the productivity of affordable housing providers. Cleaning title on County owned lots will begin a small land bank for affordable housing. Through collaboration with the One Joplin Coalition the City and One Joplin have launched a landlord/tenant education program funded by a grant from the Missouri Foundation for Health. This is intended to decrease the number of evictions in affordable rentals in the city due to better rental practices.

Actions planned to reduce lead-based paint hazards

Lead testing is required for rehabilitation programs. Participating organizations will follow current HUD lead-based paint regulations. In addition, every six months, Economic Security Corporation randomly audits one of its projects to verify compliance. A copy of the City’s current Lead-Based Paint policies is included in the plan appendices.

Actions planned to reduce the number of poverty-level families

The City is currently evaluating possible future economic development activities under the next consolidated plan. The City of Joplin, through support of the Coordinated Entry Program, hopes to increase job placement of those at risk of homelessness and eventually out of poverty. Further, the provision of affordable housing will alleviate those low-income families effectively living in poverty due to housing cost burden.

Actions planned to develop institutional structure

The City has expanded involvement with One Joplin, a coalition of non-profits within the City. One Joplin is increasing collaboration and beginning to conceive of low-income and poverty focused projects, both in services and housing. Partnership with this group will help with outreach and programming and allow for excellent delivery of services despite decreasing funding. The City Manager is City staff representative to the One Joplin steering team and the Community Development Planner is co-chair on the One Joplin Poverty Team, and the City staff representative Housing Sub-Committee. The One Joplin Poverty Team
Housing Sub-Committee is nearing the end of a planning phase for an affordable micro-home design program, and rental rehabilitation program. This year One Joplin has launched a landlord/tenant education program with the goal of leading to housing policy updates in the future.

**Actions planned to enhance coordination between public and private housing and social service agencies**

One Joplin is the local coalition of 40 non-profits and a total of 70 organizations. Each organization sends representatives to the facilitating teams of Health, Human Services, Poverty, Literacy, and Transportation relevant to their organizational mission. The City Manager sits on the steering team of One Joplin. The Joplin Community Development Planner co-chair on the Poverty Team and sits on the Housing Sub-Committee. The City will continue its partnership with ESC and Habitat for Humanity as CHDO’s using HOME funds.

**Discussion:**
Program Specific Requirements
AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

Introduction:

Community Development Block Grant Program (CDBG)
Reference 24 CFR 91.220(l)(1)
Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed 0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan. 0
3. The amount of surplus funds from urban renewal settlements 0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan 0
5. The amount of income from float-funded activities 0
Total Program Income: 0

Other CDBG Requirements

1. The amount of urgent need activities - 0

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City through sub-recipients offers HOME funds for owner-occupied rehabilitation on a forgivable loan basis and offers homebuyer’s subsidies to allow affordable homes to low- and moderate-income homebuyers through the CHDO activity. Homebuyer assistance through CHDO’s are offered through the CHDO and do not exceed the 10% threshold for HOME investment.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for
homebuyer activities as required in 92.254, is as follows:

The CITY shall have the right to review and audit all records of any DEVELOPER pertaining to any payment by the CITY. Said records shall be maintained for a period of five years after the project completion date. Except, for documents imposing Resale/Recapture restrictions which must be retained for Five years after the affordability period terminates [92.308 (c)(2)].

The HOME-assisted housing must meet the affordability requirements for not less than the applicable period specified in the following table, beginning after project completion.[92.254 (a)(4)].

The DEVELOPER shall assure that any NOTES and MORTGAGES recorded for homebuyers shall be in compliance with 24 CFR 92.254 and that the DEVELOPER will monitor each unit for principal residency (under 92.254(a)(3)) and resale/recapture (under 92.254 (a)(4) – (5)).

A copy of the City's current Deed Restriction and Covenant is found in the Appendices of this Plan

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

The owner-occupied rehabilitation activity through ESC imposes a five-year affordability period on all rehabilitations. The affordability period is record as a Deed Restriction and is forgiven after 3 years, if all program requirements are met. Any funds that may be returned will be treated as program income.

The PJ has structured the CHDO’s and Joplin Area Habitat for Humanity’s recapture provisions based on the amount of HOME assistance that enables the homebuyer to purchase the unit. The period of affordability will be based upon the total amount of HOME funds subject to recapture [CFR 24 92.254(a)(5)(ii)]. The following chart outlines the funding limits and period of affordability.

When the recapture requirement is triggered by a sale (voluntary or involuntary) of the housing unit, the amount recaptured cannot exceed the net proceeds, if any. The net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs [CFR 24 92.254(a)(5)(ii)(A)]. The program will use a deed restriction to enforce the recapture provisions.

A copy of the City's current Deed Restriction and Covenant is found in the Appendices of this Plan.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is
rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

The City currently has no plans to use HOME funds for such refinancing.

The City of Milwaukee is working on developing a Community Power Plan (CPP) that aligns with the goals of the city's sustainability initiatives. The plan is designed to enhance the city's energy efficiency and reduce its carbon footprint. The CPP will focus on several key areas:

1. **Energy Efficiency**: Implementing energy-efficient practices in municipal operations and public buildings.
2. **Renewable Energy**: Increasing the use of renewable energy sources such as solar and wind power.
4. **Public Awareness**: Educating the public on the benefits of sustainable energy practices.
5. **Partnerships**: Collaborating with local businesses and organizations to reduce energy consumption.

The CPP will be completed by the end of 2023. The City of Milwaukee is seeking input from the public through a series of community meetings. The first meeting is scheduled for the end of May. Public comments can also be submitted via email to sustainableenergy@milwaukee.gov.

602 S. Main Street Joplin, MO 64801

Thank you for your feedback

Attachment B
Appendices

Section 7 - APPENDIX A - Lead Regulations

LEAD BASED PAINT
(24 CFR PART 35)
REFERENCE GUIDE

(SUB-GRANTEES are to refer to, and comply with, all of the actual lead paint regulations and HOME regulations when lead hazards are involved. The following is only an overview.)

A. HUD’s Lead-Safety Regulation

Federal Register (Wednesday, September 15, 1999)

Department of Housing and Urban Development
Requirements for Notification, Evaluation, and Reduction of Lead-Based Paint Hazards in Federal Owned Residential Property and Housing Receiving Federal Assistance; Final Rule

B. Exemptions 24 CFR 35.115

- Post-1977 housing (1978 and newer)
- Zero-bedroom units
- Property certified as lead-based paint free
- Property where lead-based paint was removed
- Disaster Related Emergency & Accessibility actions

Note: Always get these prior approved by the PJ first.

C. Documentation Required

Notice To Occupants
- Distribution of the “EPA Lead Hazard Information” Pamphlet to homeowner
- “Notice of Hazard Evaluation” (or presumption) within 15 days and “Notice of Hazard Reduction & Clearance” within 15 days

Hazard Reduction Work
- Final scope of work with both lead- and non lead-paint (included in Work Write-Up/Cost Estimate)
- Worker qualifications (must be pre-approved with JC)
- Safe Work Practices at 24 CFR Part 35.1350 observed
- Lead Clearance must be achieved after all rehab work done

Clearance Report (after completion of rehab)
- copy of clearance report must be sent to the PJ at time of payment request
- must be performed by a certified paint inspector or risk assessor.
D. General Procedural Overview

Lead-based paint testing and risk assessment will also be conducted by a qualified SUB-GRANTEE Inspector or, an outside certified lead-based trained inspector should be hired. The presumption of lead-based paint or the lead paint inspection must be performed in all areas of the home (pre-1978) including exteriors of the home.

The scope of work must integrate both “lead” and “non-lead” triggered activities. (Provide preliminary work write-up to Risk Assessor, then incorporate the assessment’s findings.)

The entire house must pass a Lead Clearance test. HOME funds must first be allocated to lead stabilization or abatement projects so the house complies with the Lead Safe Housing Rule before other projects can commence. The exception to this would be accessibility or emergency repair projects.

Course of Action:

1. Determine level of hazard evaluation and reduction (24 CFR 35.915-930)
2. Presume lead or evaluate (option – 24 CFR 35.120), evaluate recommended
3. Perform paint testing and risk assessment by certified personnel
4. Include in the scope of work for “lead” activities the interim controls and/or abatement recommendations from a risk assessor, and safe work practices for items determined to be lead paint.
6. Based on the results of paint testing and/or risk assessment, establish contractor qualifications (see safe work practices and 35.1325-1330), safe work practices to be used (including occupant protections), and achieving clearance in bid invitation and contract.
7. Relocate occupants and belongings if containment cannot be achieved (24 CFR Part 35.1345)
8. Supervise work so that “Safe Work Practices” at 24 CFR Part 35.1350 are used: worksite is prepared/contained and occupants and their belongings are protected, prohibited methods of paint removal are not used, specialized cleaning is conducted to achieve clearance. Verification that these practices were observed must be provided to the PJ. This is recommended to take the form of a signed letter/form accompanied by photos that may provide proof of compliance. The occurrence of this monitoring should be no less than 1 verification for every 6 months. (Amended 11/19/12)
9. Property must be inspected by a licensed lead paint inspector, risk assessor, or lead sampling technician and pass the lead clearance evaluation after all rehab work is done.

E. Lead Hazard Evaluation Methods & Qualifications

1. Visual Assessment: A visual assessment for deteriorated paint consists of a visual search for cracking, scaling, peeling, or chipping paint. This assessment does not identify the presence of lead, only the potential danger and is only allowed for projects that do not exceed $5,000. The assessment is performed by either a certified risk assessor or Housing Quality Standards (HQS) inspector trained in visual assessment.

2. Paint Testing: entails testing painted surfaces to determine if they contain lead-based paint, using methods such as XRF analyzer or a laboratory analysis. (Note: Paint testing differs from a lead-based paint inspection, which is a surface-by-surface investigation to determine the presence of lead-based paint. Typically, the XRF analyzer is used for an inspection. Because an inspection evaluates all painted surfaces, is more comprehensive than the paint testing.) Paint testing must be conducted by state certified paint inspectors or risk assessors.
3. **Risk Assessment**: is a comprehensive investigation of a dwelling to identify lead-based paint hazards that includes paint testing, dust and soil sampling, and a visual evaluation. Risk assessment details are summarized in a written report with recommendations for actions. A certified risk assessor must conduct the assessment.

F. Lead Hazard Reduction Methods:

1. **Paint Stabilization**: reduces exposure to lead-based paint by addressing deteriorated paint on exterior and interior surfaces through repairs, safe paint removal, and repainting or abatement.

2. **Interim Controls**: *(24 CFR 35.1330)* Temporary measures to reduce human exposure to lead-based paint hazards through repairs, painting, maintenance, special cleaning, occupant protection measures, clearance, and education programs. Interim control methods require safe practices and include:

   - **Paint stabilization** — All deteriorated paint on exterior and interior surfaces must be stabilized through repairs, safe paint removal, and repainting.

   - **Treatment for friction or impact surfaces** — If lead-based paint is found and exceeds acceptable levels or is presumed, the conditions creating friction or impact with surfaces with lead-based paint such as those that rub, bind, or crush must be corrected. Examples of this work include re-hanging binding doors, installing door stops, or reworking windows.

   - **Treatment for chewable surfaces** — If a child under six has chewed surfaces known to contain lead-based paint or if lead-based paint is presumed, these surfaces must be enclosed or coated so they are impenetrable.

   - **Lead-contaminated dust control** — All horizontal surfaces that are rough, pitted, or porous such as bare floors, stairs, window sills, and window troughs must be covered with a smooth, cleanable covering or coating such as metal coil stock, plastic, polyurethane, or linoleum. Carpeting must be vacuumed or rugs must be removed and vacuumed on both sides. Vacuuming must be done using HEPA vacuums.

   - **Lead-contaminated soil control** — If soil is lead-contaminated, interim controls that may be used include impermanent surface coverings such as gravel, bark, and sod as well as land use controls such as fencing, landscaping, and warning signs.

Interim Controls (including Standard Treatments) *(24 CFR 35.1330)*: the workers should be trained in accordance with the OSHA Hazard communication requirements *(29 CFR 1926-59)* or either be supervised by an individual certified as a lead-based paint abatement supervisor, or must have successfully completed on the following courses:

   - LBP abatement worker or supervisor *(40 CFR 745.225)*
   - Operations and Maintenance (NETA)
   - Remodeler’s and Renovator’s Lead-Based Paint Training Program* developed by HUD and the National Association of the Remodeling Industry; or,
   - An equivalent course approved by EPA or HUD

3. **Abatement**: permanently removes lead-based paint and lead-based paint hazards by removing lead-based paint and its dust, or permanently encapsulating or enclosing the lead-based paint, replacing components with lead-based paint, and removing or permanently covering lead-contaminated soil. Encapsulation and enclosure require ongoing maintenance to check their effectiveness.
Abatement must be conducted by certified abatement workers who successfully completed a lead-based paint abatement worker course accredited by EPA. These workers must be supervised by a lead-based paint abatement supervisor certified under a State program authorized by EPA, or conducted by EPA.

**G. Safe Work Practices 24 CFR 35.1350**

- Prohibited methods- Methods of paint removal listed in Sec. 35.140 shall not be used.
- Occupant protection and worksite preparation- Occupants and their belongings shall be protected, and the worksite prepared, in accordance with Sec. 35.1345.
- Specialized cleaning – After hazard reduction activities have been completed, the worksite shall be cleaned using cleaning methods, products, and devices that are successful in cleaning up dust-lead hazards, such as a HEPA vacuum or other method of equivalent efficacy, and lead-specific detergents or equivalent.

**Prohibited Methods of Paint Removal (24 CFR 35.140)**
The following methods shall not be used to remove paint that is, or may be, lead-based paint:

1. Open flame burning or torching.
2. Machine sanding or grinding without a high-efficiency particulate air (HEPA) local exhaust control.
3. Abrasive blasting or sandblasting without HEPA local exhaust control.
4. Heat guns operating above 1100 degrees Fahrenheit or charring the paint.
5. Dry sanding or dry scraping, except dry scraping in conjunction with heat guns or within 1.0 ft. (0.30 m.) of electrical outlets, or when treating defective paint spots totaling no more than 2 sq. ft. (0.2 sq. m.) in any one interior room or space, or totaling no more than 20 sq. ft. (2.0 sq. m.) on exterior surfaces.
6. Paint stripping in a poorly ventilated space using a volatile stripper that is a hazardous substance in accordance with regulations of the Consumer Product Safety Commission at 16 CFR 1500.3, and/or a hazardous chemical in accordance with the Occupational Safety and Health Administration regulations at 29 CFR 1910.1200 or 1926.59, as applicable to the work.

**Occupant Protection (24 CFR 35.1345)**
Occupants shall not be permitted to enter the worksite during hazard reduction activities (unless they are employed in the conduct of these activities at the worksite), until after hazard reduction work has been completed and clearance, if required, has been achieved.

Occupants shall be temporarily relocated before and during hazard reduction activities to a suitable, decent, safe, and similarly accessible dwelling unit that does not have lead-based paint hazards, except if:

- Treatment will not disturb lead-based paint, dust-lead hazards or soil-lead hazards;
- Only the exterior of the dwelling unit is treated, and windows, doors, ventilation intakes and other openings in or near the worksite are sealed during hazard control work and cleaned afterward, and entry free of dust-lead hazards, soil-lead hazards, and debris is provided;
- Treatment of the interior will be completed within one period of 8-daytime hours, the worksite is contained so as to prevent the release of leaded dust and debris into other areas, and treatment does not create other safety, health or environmental hazards (e.g.,
exposed live electrical wiring, release of toxic fumes, or on-site disposal of hazardous waste); or

- Treatment of the interior will be completed within 5 calendar days, the worksite is contained so as to prevent the release of leaded dust and debris into other areas, treatment does not create other safety, health or environmental hazards; and, at the end of work on each day, the worksite and the area within at least 10 feet (3 meters) of the containment area is cleaned to remove any visible dust or debris, and occupants have safe access to sleeping areas, bathroom and kitchen facilities. (HUD Interpretive Guidance J24 – “The term “interior work” refers to work in a single room. See also R18 and R19.)

The dwelling unit and the worksite shall be secured against unauthorized entry, and occupants' belongings protected from contamination by dust-lead hazards and debris during hazard reduction activities. Occupants' belongings in the containment area shall be relocated to a safe and secure area outside the containment area, or covered with an impermeable covering with all seams and edges taped or otherwise sealed. If contaminated, furniture and clothing should be cleaned before returning to the home.

**Worksite Preparation** 24 CFR 35.1345

1. The worksite shall be prepared to prevent the release of leaded dust, and contain lead-based paint chips and other debris from hazard reduction activities within the worksite until they can be safely removed. Practices that minimize the spread of leaded dust, paint chips, soil and debris shall be used during worksite preparation.

2. A warning sign shall be posted at each entry to a room where hazard reduction activities are conducted when occupants are present; or at each main and secondary entryway to a building from which occupants have been relocated; or, for an exterior hazard reduction activity, where it is easily read 20 feet (6 meters) from the edge of the hazard reduction activity worksite. Each warning sign shall be as described in 29 CFR 1926.62(m), except that it shall be posted irrespective of employees' lead exposure and, to the extent practicable, provided in the occupants' primary language.

**H. Relocation Guidelines**

Relocation may be required for households when the site cannot be contained. The Sub-Grantee must determine if the lead-hazard reduction work will require relocation for the safety of the household. If so, the homeowner must relocate and is responsible for finding a safe place in which to stay. They are also responsible for any costs incurred. This is considered their contribution to the project.

**When is relocation required?**
- If the work site cannot be contained and will create safety, health, or environmental hazards, relocation will be required until all interior work is completed and passes the dust wipe clearance criteria.

- If the resident cannot enter important parts of their home such as the bathrooms or kitchen for several days, they may need to relocate temporarily.

**When is relocation not required?**
- The work will not disturb lead-based paint, create lead dust hazards and soil lead hazards
• The work on the interior of the home will be completed within one period in eight daytime hours, the site will be contained, and the work will not create other safety, health, or environmental hazards.

• Only the building’s exterior is treated; the windows, doors, ventilation intakes, and other openings near the worksite are sealed during hazard reduction activities and cleaned afterward; and a lead-free entry is available.

• Treatment will be completed within five calendar days; the work area is sealed; at the end of each day, the area within 10 feet of the containment area is cleared of debris and cleaned; and, at the end of the day, the occupants have safe access to sleeping areas, a bathroom and kitchen facilities; and treatment does not create other safety, health, or environmental hazards.

• Relocation of elderly occupants (62 and over) is not typically required. Complete disclosure of the nature of work must be provided and informed consent of the occupant is obtained before commencement of work. Children must not be present in the home.

What constitutes an appropriate relocation unit?
The Lead Safe Housing Rule requires that the relocation unit be lead-safe. There are two ways to demonstrate the lead-safety of a unit:

• Use post-1978 units
• Perform a clearance examination in the unit to ensure that there is no deteriorated paint or dust hazards
• Commercial units such as hotels are exempt

Work in owner-occupied housing does not trigger the URA (Uniform Relocation Act). However, agencies may choose to adopt optional policies that define “hardship” situations for homeowners and pay certain costs related to the temporary relocation. These costs should be necessary and reasonable. Any such policy must be written and must be applied consistently.

Minimize the relocation time:
• Schedule the work to minimize the time the residents must be out of the home. When scheduling work:
  o The worksite must be properly contained and the resident may never enter during the course of the work.
  o Work areas must pass interim clearance before a resident can reoccupy the home
  o A final clearance is required at the end of the job, even after interim clearances have been done.
• Look for ways to streamline standard rehab procedures to ensure that jobs move more quickly.
• Maintain strict deadlines for contractors to finish the work and pass clearance.

I. Lead Hazard Criteria

• Deteriorated paint
• Lead in dust (clearance and/or risk assessment)
  o Floors 40 micrograms/ft²
  o Interior window sills 250 micrograms /ft²
  o Troughs 400 micrograms /ft² (clearance only)

• Lead in soil (risk assessment)
  o Play areas of bare soil 400 parts per million (ppm)
  o Other soils in remainder of yard 1200 parts per million (ppm)

DECLARATION OF DEED RESTRICTION AND COVENANT

THIS DECLARATION OF DEED RESTRICTION AND COVENANT is made this day of ___, 20__, by ____________________________, the fee simple owner of certain property further described herein.

RECITALS:

WHEREAS, Homeowner is the beneficiary of expenditure of federal funds amounting to pursuant to the Home Investment Partnership Program ("HOME Program") from the Joplin HOME Consortium, which were used for the acquisition of the residential building on the following described real property in the County of Jasper, State of Missouri (the "Property"):

Also known as: ____________________________

WHEREAS, the Homeowner, as the beneficiary of the expenditure of HOME Program funds, has agreed to record a deed restriction and covenant that runs with the Property to ensure that certain affordability and occupancy requirements are met.

NOW, THEREFORE, the following is established as a deed restriction and covenant running with the Property:
1. **Affordability Requirements.** The use of the Property shall comply with the affordability requirements established by the U.S. Department of Housing and Urban Development ("HUD"), which are currently set forth in 24 CFR Section 92.254, including, as follows:

   A. **Acquisition.** Housing that is for acquisition by a family must be single family housing. The housing must have a purchase price that does not exceed 95 percent of the median purchase price for the area [CFR 24 92.254(a)(2)(i)].

   B. **Period of Affordability.** The HOME-assisted housing must meet the affordability requirements for no less than the applicable period. Homeownership assistance HOME amount per-unit is under $_______ and is therefore subject to the minimum period of affordability of______years [CFR 24 92.254(a)(4)].

   C. **Occupancy Limitations.** The Property must be the principal residence of Homeowner and Homeowner's family throughout the period of affordability, unless the property is resold pursuant to Section C. below [CFR 24 92.254(a)(3)].

   D. **Recapture Provisions.** Recapture provisions ensure that the City of Joplin, acting as the Joplin HOME Consortium Participating Jurisdiction (PJ), recoups a portion of the HOME assistance to the homebuyers, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability [CFR 24 92.254(a)(5)]. The recapture rate for the Property is as follows:

   The HOME investment amount is to be recaptured on a twenty percent (20%) prorata basis for the time the homeowner has owned and occupied the housing measured against the required affordability period of years. THEREFORE, the amount to be recaptured is reduced by twenty percent (20%) of the entire HOME investment amount, or

   , every year the homeowner occupies the housing unit until the____year affordability period has been completed.

   The PJ has structured its recapture provisions based on its program design and market conditions. The period of affordability is based upon the total amount of HOME funds subject to recapture [CFR 24 92.254(a)(5)(ii)]. When the recapture requirement is triggered by a sale (voluntary or involuntary) of the housing unit, the amount recaptured cannot exceed the net proceeds, if any. The net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs [CFR 24 92.254(a)(5)(ii)(A)].
2. **Term.** The affordability requirements stated in this Deed Restriction and Covenant shall encumber the Property for________ years, from _______, 20 through and including _______, 20____ ("the period of affordability") and shall not be amended or modified without the express written consent of the City of Joplin (The Participating Jurisdiction for the Joplin Consortium).

3. **Enforcement.** The provisions of this Deed Restriction and Covenant may be enforced by City of Joplin and/or HUD, or appropriate representatives thereof.

Homeowner: City of Joplin (PJ):
