REASON FOR VACATION
Gary Rose is representing a client who is looking to begin construction on a home on three lots where the existing easement nearly bisects each lot, hindering the placement of any structure on the lots while still meeting our setback requirements.

UTILITIES CURRENTLY LOCATED IN THE RIGHT-OF-WAY?

Drainage ditch has been rerouted to the rear of the lots, out of the way of potential future development.

UTILITIES PLANNED TO LOCATE IN THE RIGHT-OF-WAY?

No plans for new utilities to be located in the right-of-way.

DISCUSSION
Gary Rose is representing a client who is looking to begin construction on a home on three lots where the existing easement cuts through the middle, making it difficult to locate a structure outside of the easement while still maintaining the 25-foot setbacks for the front and backyards. In conjunction with neighbors to the North, a new drainage ditch has been constructed on the rear of the lots that is out of the way of any potential structures and has been approved by the City’s Engineering Department. A new easement will be granted over this new drainage ditch.
To be clear, this is strictly a drainage easement, meaning no other utilities other than the City's Stormwater Utilities are affected by this vacation request. In order to allow for the construction to take place on these three lots as well as other vacant lots to the North, and to remove a redundant easement, staff recommends approval of this vacation.

Staff recommends approval of Case 051-20.
