Introduction

Canfield Jenkins and Associates LLC is a regional consulting firm based in Northwest Arkansas with experience in emergency response analysis, strategic planning, emergency dispatch processes, workforce development, officer development and service delivery. Our common sense and prudent approach to complex public safety problems provides the best “bang for the buck” for local governmental entities. Canfield Jenkins and Associates matches the customized needs of each community with professional industry leaders who can assess and help implement timely and realistic solutions.

LETTER OF INTEREST

In response to the Request for Proposal (RFP) from the City of Joplin for Professional Services for the Fire Department Resource Allocation Study, Canfield Jenkins and Associates LLC (CJA) is submitting application materials for consideration. CJA is proposing to facilitate research regarding the Joplin Fire Department’s current staffing and fire station allocation, taking into consideration industry best practices and consensus standards. Our methodical and systematic approach will include assessing risk and needs within the community, understanding growth patterns and making recommendations for future service delivery and deployment. The proposal will include an evaluation of best practices, stakeholder engagement and model recommendations. CJA will develop a final report and present it as needed to stakeholders. CJA recognizes that every community and organization is unique and, as such, we are dedicated to understanding the needs and nuances of the City of Joplin.

PURPOSE

The purpose of the work is to determine personnel and resource allocation needs for the Joplin Fire Department to meet the needs of the citizens of Joplin, taking into consideration projected future growth and multiple facets of the department. Included in our work are recommendations on fire station location and resource deployment.

PROCESS

The process will include the following objectives five main tasks:

Task 1. Development of Leadership Team

CJA recommends a Leadership Team be established representing internal stakeholders of the City of Joplin Fire Department. This collaborative team will have regular virtual meetings to help establish priorities, interpret information obtained and provide direction in the final development of the report. The purpose of this team is to ensure responsiveness to the project scope and to develop stakeholder buy-in throughout the development of the report. CJA recommends the team include the Fire Chief (or their designee), a representative of Joplin IAFF Local 59 and a Battalion Chief/Shift Commander. Other team members can be added as desired by the city.
Task 2. Research

CJA will conduct research in a variety of methods, which include:

A. Review and summarize Joplin Fire Department staffing methodology and historical changes.
   - Organizational structure
   - Shift staffing
   - Management and administrative staffing

B. Identify best-practices, innovation and alternative service delivery models that are applicable for the City of Joplin.

C. Conduct stakeholder interviews or focus groups with representatives from the Department, representatives of the International Association of Firefighters Local 59, and Metro Emergency Transport System (METS).

Task 3. Data Analysis and Interpretation

CJA will review the following data sets to help assess risk, current service delivery performance and community baselines:

- Computer aided dispatch system (CADS) reports and data
- National Fire Incident Reporting System (NFIRS) information
- FireCARES data
- Latest Insurance Service Office (ISO) report
- Available geospatial information from the city regarding emergency incidents
- Available geospatial information from the city regarding station locations and response time polygons

- Other agreements, documents and data as made available by the city

---

1 This proposal assumes the City of Joplin / Joplin Fire Department can provide GIS support to the CJA team.
Task 4. Recommendation Development

Based on the data analysis and research, CJA will develop recommendations and responses to the elements of the Request for Proposal 2021-RFP-07 as listed in Section 1.3. Specifically, the final report created by CJA will include these elements:

1. **Current staffing and deployment recommendations**
2. **Future staffing and deployment recommendations**
3. **Current enhanced service delivery recommendations**
4. **Future enhanced service delivery recommendations**
5. **Fire station distribution and concentration recommendations**

All recommendations made by CJA for the Joplin Fire Department will be as effective and efficient for the community as possible.

Task 5. Final Report and Presentation

CJA will be responsible for a draft report to be reviewed by the Leadership Team, including presentations of the report as determined by the city.

PROJECT TEAM, STRUCTURE AND QUALIFICATIONS

Canfield Jenkins and Associates LLC strives to serve public safety organizations in helping them meet the challenges of governance and improve service delivery. This service takes the form of:

- Consultation on community engagement and strategic planning
- Realistic executive, management and professional development training
- Applied research on issues identified by state and local officials
- Technical support on service delivery and resource allocation

CJA is a small organization that has existed since 2001. CJA delivers approximately three to five projects annually due to its composition. CJA and its principal consultants have a nationally respected and solid history in public safety problem solving. Associates assigned to the Joplin Fire Department project possess the professional knowledge and critical thinking ability to implement, manage and ensure completion of projects.
Tom Jenkins, President of Canfield Jenkins and Associates, will serve as project coordinator. Tom serves as the Fire Chief for the City of Rogers, Arkansas. In that capacity, he is responsible for over 154 career employees in ten different physical locations protecting Arkansas eighth largest city of approximately 80,000 citizens. As fire chief in Rogers, he has been successful in acquiring alternative revenue, opening new fire stations, obtaining dual accreditation for the department and lowering its insurance rating to a Class 1. In 2015, Chief Jenkins was elected to serve on the Board of Directors for the International Association of Fire Chiefs as the Second Vice President of the 12,000-member organization. In 2017, he was elected President and Chairman of the Board for the IAFC. In his capacity as IAFC President, Chief Jenkins was involved in numerous federal and international decisions, including providing testimony to the United States Congress in 2018.

Through Canfield Jenkins and Associates LLC, he has also consulted to various municipalities in four states (MI, MO, OK, AR) to help with equipment acquisition and service delivery models. He has been a principal member of the NFPA 1710 committee since 2011. He has personally assisted in the development of resource deployment methodology and decisions for the cities of Tulsa (OK), Broken Arrow (OK), Catoosa (OK) and several others throughout the multi-state region. He currently serves on the Advisory Board of the National Fallen Firefighters Association and PulsePoint Foundation, as well as the Executive Board of the International Fire Service Training Association. In 2020, he was appointed to the Homeland Security Advisory Council for the US Department of Homeland Security by Secretary Chad Wolf. Tom holds a Bachelor’s Degree in Fire Protection and Safety Engineering from Oklahoma State University and a Master’s Degree in Public Administration from the University of Oklahoma. He is a credentialed Chief Fire Officer, Chief EMS Officer and a graduate of the National Fire Academy’s Executive Fire Officer Program.
Jarett Metheny, CJA Project Manager, will provide expertise in the areas of stakeholder engagement and enhanced service delivery. Jarett will be working closely with the agency during the evaluation process to ensure department characteristics and community needs are incorporated into the final work product. Jarett is a graduate of Oklahoma State University’s Fire Protection and Safety Engineering program and a 26-year veteran of the fire service. His career spans two states and three cities, including service as fire chief in the communities of Midwest City (OK), Battlefield (MO), and Ozark (MO).

He is a graduate of the National Fire Academy’s Executive Fire Officer Program and a credentialed Chief Fire Officer from the Commission on Professional Credentialing. Jarett served in a variety of capacities during his tenure with the Midwest City Fire Department, working his way to Chief in 2013. He retired from Midwest City in 2015 after twenty years of service. Jarett has experience as a full-time tenure track professor for Oklahoma State University, a position he held until his appointment as the Fire Chief for the Battlefield Fire Protection District in 2018. In 2020, Chief Metheny accepted the fire chief’s position with the Ozark Fire Protection District. Jarett serves as the Program Coordinator for Drury University’s Public Service and Safety Leadership Master’s Degree Program and will complete his PhD in Fire and Emergency Management Administration from Oklahoma State University later this year.

Vicki Atchley, CJA Project Associate, will provide expertise in the area of dispatch operations and geospatial analysis for station locations. A 27-year veteran of public safety communications and emergency deployment analysis, Vicki currently serves as the Director of the Northeast Oklahoma E911 Trust Authority in Claremore, Oklahoma. She has previous experience in E911 and emergency dispatch administration in multiple counties and three states. She has a Bachelor’s Degree in Criminal Justice from Northeastern State University in Tahlequah, Oklahoma.

Other CJA professional staff will be utilized as required as the project is developed. All staff involvement will be approved by the City of Joplin.
RECENT SIMILAR PROJECTS COMPLETED BY ASSOCIATES

Ozark Fire Protection District Strategic Plan and Deployment Analysis (2020)
Lawrence Douglas County Fire Medical EMS Deployment Analysis (2020)²

Individually, both Tom Jenkins and Jarett Metheny have completed similar projects in other capacities including the authorship of standard of cover documents, the location and relocation of fire stations and the distribution and analysis of human resource needs for fire department deployment.

BUDGET

The budget for this project is inclusive of costs associated with the consultants assigned, retainers for elements of the report, travel and all costs. The total project cost shall not exceed $37,500. The billing for this project shall occur at project milestones as outlined in the process.

TIMELINE

According to the timeline provided in Section 1.5.1 of the RFP, CJA would anticipate beginning work on March 16, 2021. The following timeline elements are estimates and subject to change:

Task 1 - March 16 to March 26
Task 2 - March 29 to April 30
Task 3 - May 3 to May 28
Task 4 - May 31 to June 30
Task 5 - To be scheduled after June 30

² Working for Wichita State University under contract

PROFESSIONAL EXPERIENCE
Fire Chief
City of Rogers Fire Department
March 2009-Present
Rogers, AR

- Responsible for strategic planning, budgeting, personnel management, resource deployment, and overall coordination and leadership of an eight station department overseeing 154 career personnel.
- Led and managed an effort to secure accredited status with the Center for Public Safety Excellence in 2011, and with the Commission on Accreditation of Ambulance Services in 2012. The Department has been consistently accredited by these Commissions on regular cycles since the original accreditations becoming the first in the state and one of very few in the country to attain this achievement.
- Completed a comprehensive fleet assessment and replacement program resulting in the purchase and customized design of nearly thirty new apparatus, including an ARFF unit, ten pumps, three ladders, two heavy rescues, ten ambulances, three brush pumps, two all-terrain units and two boats.
- Developed and led a technical rescue and hazardous materials team and improved capacity, organization, and training for these specialized disciplines with regional coordination throughout the metropolitan area. This effort included a dive rescue function in coordination with local county law enforcement and an aerial rescue component with the National Guard and their UH-60 "Blackhawk" helicopters.
- Increased revenue from emergency medical responses by over 50% in three years through progressive billing and collection strategies.
- Reduced emergency response time compliance by 25% (turnout/reaction time) through systematic improvements in alerting processes and situational awareness devices.
- Organized the management and construction of six capital facilities for the Department, including three fire stations (Stations 2, 5 and 8) and the training center campus which includes a classroom building, conference center and five-story burn building.
- Crafted and overhauled civil service commission regulations in compliance with federal and state regulations.
- Implemented a new compensation and certification strategy, resulting in improved recruitment and retention of firefighters.
- Composed and was awarded over $5 million dollars in grants and alternative funding for staffing and additional capital equipment projects.
- Successfully reduced the department’s Public Protection Classification from the Insurance Service Office from a Class 3 to a Class 1 and have since maintained the rating.
- Managed the consolidation of the city’s Building Inspection Department into the Fire Department’s existing Fire Prevention Division, drastically improving customer service while increasing the efficiency of both organizational elements.
- Created and implemented initiatives for EMS resource management, including low acuity ambulance transportation and EMS delivery alternatives.
Special Government Employee, Homeland Security Advisory Council  November 2020 – Present  
US Department of Homeland Security  Washington, DC  
- Appointed by Homeland Security Secretary (Acting) Chad Wolf under the designation of Police, Fire, Emergency Medical Services and Public Works.

President and Chairman of the Board  July 2017 – August 2018  
International Association of Fire Chiefs  Fairfax, VA  
- Elected by the 15,000 members of the organization representing leaders of fire departments across the world.
- Provided guidance and input to the development and dissemination of the National Mutual Aid System.
- Established a Leadership Summit with the associations various committees, divisions and sections to enhance communication and develop a joint vision and strategic plan.
- Created an Urban Search and Rescue committee to serve as a clearinghouse for issues relating to the 28 FEMA Type I teams.
- Established the Arabian Gulf Fire Council and conducted the first international conference in the Kingdom of Bahrain.
- Facilitated the sell and move of the association’s headquarters office building.

President  December 2011-Present  
Canfield Jenkins and Associates, LLC  Rogers, AR  
- Provided deployment, training and leadership consultation to a wide variety of entities seeking to improve service delivery. Customers include: Ozark Fire District (MO), Wichita State University, Lawrence/Douglas County Fire and Medical Department (KS), Catoosa Fire Department (OK), Northeast Benton County Fire District (AR), Pea Ridge Fire Department (AR), Okmulgee Fire Department (OK), Branson Fire Department (MO), Port Huron Fire Department (MI), Fort Gratiot Township Fire Department (MI), PulsePoint Foundation (CA).

Adjunct Professor  August 2020-Present  
Drury University  Springfield, MO  
- Course professor for the Strategic Planning and Evaluation and Human Resource Management upper division courses for the Master’s Program in Public Service and Safety Leadership.
- Established curriculum for associated classes.

Adjunct Professor  August 2011-May 2020  
Northwest Arkansas Community College  Bentonville, AR  
- Course professor for the Fire Service Hydraulics, Fire Suppression Tactics, and Fire Service Administration lower division classes.
- Revised curriculum for practical education and adherence to the FESHE model.

Adjunct Professor  August 2011-December 2012  
Oklahoma State University  Stillwater, OK  
- Course professor for the “Local Government Issues in the Fire Service” upper division course.
- Selected as professional representative for ABET accreditation process (2012).
- Participated in the Industrial Advisory Board for the Fire Protection and Safety Engineering Technology Bachelors of Science degree to review curriculum and graduation requirements.
Deputy Fire Chief
City of Sand Springs
- Responsible for incident command and control, company supervision, personnel management and resource allocation for a department consisting of 36 career firefighters.
- Directed company training and development of various training programs that included company officer development, the probationary fire academy, driver and pumper operator school, and incident strategy and tactics.
- Served on the city's collective bargaining committee with the IAFF Local 2173 obtaining successful contracts with arbitration or mediation for fiscal years 2006-2009.
- Created a wellness and fitness policy in conjunction with the IAFF Local 2173 that mandated annual physicals and daily workout requirements for all members.
- Established a comprehensive river rescue policy involving coordination from four fire departments, the Sheriff's office, and the Tulsa Police Aviation Unit.

2016 – Keynote Speaker, Stillwater Fire Department Promotional Ceremony: Stillwater, OK

2016 – “Bringing Community Risk Reduction to the Streets”, Executive Fire Officer Research Symposium: Emmitsburg, MD

2016 – “Establishing the Accreditation Culture”, Center for Public Safety Excellence Conference: Orlando, FL

2015 – “Making the Grade: Performance Measurement on the Incident Scene”, Center for Public Safety Excellence Webinar Online

2015 – “Preparedness and Field Management”, Improving Critical and Acute Care Through Regional Education (ICARE) Conference: UAMS College of Medicine, Rogers, AR

2014 – Keynote Speaker, Springfield Fire Department Graduation Ceremony: Springfield, MO

2014 – "Paralysis from Analysis – Staying out of the Accreditation Rut", Center for Public Safety Excellence Conference: Las Vegas, NV

2013 – “Calm not Calamity: Be Ready for These Tough Questions from your Mayor or City Manager", Fire Rescue International: Chicago, IL

2013 – "Planting the Seed: How to Grow Innovation in your Department", Fire Rescue International: Chicago, IL

2013 – "The Things I Wished I Would have Known before Becoming Fire Chief", Arkansas State Fire Chiefs Conference: Hot Springs, AR

2012 – “Success tips for chief officers”, Arkansas State Fire Chiefs Conference: Hot Springs, AR

2012 – Keynote Speaker, Oklahoma State Fire School: Oklahoma City, OK

2011 – “The Things I Wished I Would have Known before Becoming Fire Chief", Fire Rescue International: Atlanta, GA

2009 – Keynote Speaker, Arkansas Fire Academy Graduation: Camden, AR

LEADERSHIP

Vice President, International Fire Service Research Center and Policy Institute 2020-Present

Organizer and Facilitator Northwest Arkansas COVID-19 Task Force 2020-Present

Advisory Board Member, National Fallen Firefighters Foundation 2020-2022

President, Motorola Trunked Radio Users Group (MTUG), Arkansas Chapter 2019-Present

Insurance Service Office Public Protection Fire Chief Representative 2018-Present

Advisory Board Member, PulsePoint Foundation 2018-Present

Arkansas Governor's Appointee to School Safety Commission 2018

President and Chairman of the Board, International Association of Fire Chiefs 2017-2018

Board Member, International Fire Service Training Association 2017-Present

Chairman, Benton County 911 Administration Board 2016-2018
1st Vice President, International Association of Fire Chiefs 2016-2017

Advisory Board – Columbia Southern University Fire Science Program 2016

Stakeholder Participant – Firefighter Safety Through Advanced Research II (FSTAR2) Program for the International Association of Fire Chiefs 2015-2016

Member and Scholarship Recipient for NFPA Responder Forum Class of 2017 2015-2017

2nd Vice President, International Association of Fire Chiefs 2015-2016

Arkansas Governor's Appointee to Firefighter Cancer Benefit Review Panel 2015-Present

Arkansas Governor's Appointee to Trauma Advisory Council 2013-Present

Adjunct Member, Terrorism and Homeland Security Committee – International Association of Fire Chiefs 2013-2016

Stakeholder Participant – Firefighter Safety Through Advanced Research (FSTAR) Program for the International Association of Fire Chiefs 2013-2014

International Fire Service Training Association Validation Committee Member 2013-2015

Member, Industrial Advisory Board – Oklahoma State University Fire Protection and Safety Engineering Technology Program 2012-2016

Board Member, Benton County 911 Administration 2010-2019

Board Member, Benton County Dive Team Board 2010-2012

Advisory Board – Northwest Arkansas Community College Fire Program 2009-Present

Member, Oklahoma State Firefighters Association – Fire Services Committee Oklahoma City, OK 2005-2007

Member, Oklahoma State Firefighters Association – Educational Advisory Committee Oklahoma City, OK 2001-2003

SERVICE

Fire Representative, State of Arkansas Interoperable Communications Committee Policy Working Group 2020-Present

Presenter, Mission Critical Communications Webinar on In-Building Communications 2020
Chairperson, IAFC Lessons Learned Working Group (COVID-19) 2020
Board Liaison, Chief Executive Officer Search Process for the IAFC 2019-2020
Facilitator, Personal Protection Equipment Manufacturers & IAFC Summit 2019

Employment History

2017-Present; 9-1-1 Director; Northeast Oklahoma E911 Trust Authority, Claremore, OK

- Overall Management of Personnel and Operations of a County-wide Consolidated 9-1-1 Center that dispatches for 8 Police Agencies; 9 Fire Departments, and 2 Medical Services. This is a highly stressful and highly-secured work environment. 40+ hours per week.

Personnel Management:
  - Personnel Management and Accountability.
  - Evaluating team performance and individual performance to ensure high performance at all levels.
  - Ensuring employee training and readiness to respond appropriately for any type of incident or disaster.
  - Ensuring a safe work environment and promoting a healthy lifestyle.
  - Recruiting, Interviewing, and hiring new employees.

Administration:
  - Developing, Promoting, and Implementing the Emergency Operations Plan.
  - Recordkeeping / Asset Tracking.
  - Developing and Implementing Policies and Procedures for our Emergency Communications Plan.
  - Ordering Supplies, Tracking expenditures and purchase orders.
  - Bank and Record reconciliation.
  - Ensuring compliance with Criminal Justice Information Security Policy (FBI/CJIS).
  - Preparing after-action reports and participating in team debriefing sessions on all high-profile, high-stress incidents.
  - Managing our Workman’s Compensation insurance plan.

- My present duties also include those performed as Communications Coordinator as shown below.

2014-2017; Communications Coordinator; Rogers Police Dept, Rogers, AR

- Overall Management of Personnel and Operations of a mid-sized primary PSAP; dispatching Police, Fire, Medical, Code Enforcement, and Animal Control. Responsibilities include but are not limited to 40+ hours per week.

Personnel Management:
  - Testing and Interviewing applicants, recommendations on hiring, recommendations for termination.
  - Supervisor and provide clear direction to subordinate employees.
  - Create learning environment by monitoring and documenting performance for training, counseling, or commendation opportunities.
  - Prepare and provide Oversight Authority on all employee and supervisor evaluations, recommend approval or denial of merit increases.
  - Employee Payroll.
Team Building and Relationships:
- Develop and Maintain positive working relationship with surrounding PSAPs, First Responders, external customers, internal customers, and employees.
- Investigate and Resolve Employee Grievance and Citizen/User Complaints.
- Attend and participate in Department, City, County, Regional, and/or State 911 meetings.
- Provide public information to various news/media outlets; on air and by phone; may make public presentations.

Administration:
- Established and now maintaining the Priority Dispatch Quality Assurance program for:
  - Police and Fire Call-Taking
  - Emergency Fire Dispatching protocols
  - Emergency Medical protocols
  - Police and Fire Radio Traffic
- Provide Documentation, Subject Matter Expert, and Proofs to maintain our CALEA (Council on Law Enforcement Accreditation).
- Maintain NCIC/ACIC and Warrant entry and validations policies and procedures for FBI and State Biennial Audits.
- Ensure and Coordinate compliance of training program to State law. Prepare and Update training manuals as necessary.
- Prepare and update policies and procedures on a bi-annual rotation.
- Prepare mandatory annual audit of all wireless 911 funds received from the State. All purchases, employee wages, training, and certifications must be documented and submitted to the State.
- Preparing annual budget request document.
- Employee Payroll Preparation.
- Updating all policies and procedures on a bi-annual rotation.

Data:
- Prepare monthly department reports: call for service volume; 911 Incoming Calls; Non-Emergency incoming and outgoing calls; employee overtime; radio traffic volume; top 10 calls for service; time of calls from dispatch to arrival for fire to ensure compliance with NFPA 1221.

Equipment:
- Maintaining, preserving, and updating all equipment within the dispatch arena: Radios, CAD, 911 Telephony, Zetron, and PC Workstations.
- Provision County 911 cell towers and sectors for routing accuracy.
- Build and update GIS (Graphic Information Systems) Layers of Map Data for our CAD and 911 Telephony Systems.
- Implementation of Text-2-911 and upgrading equipment for compliance with NG-911

2011-Present: GIS Resource Specialist/Consultant;
Okfuskee County, Okmulgee County and Muskogee City County E911 Centers;
Started as Operations Supervisor for the County-Wide E911 Trust Authority; then assumed the focused role of GIS/Data Resource Specialist to complete the build of the new CAD and implement the 911 Telephony System. When I was hired by Rogers, AR I continue to assist Muskogee by updating their mapping and maintaining the MSAG (Master Street Address Guide) for the County on a part-time basis (20 hours per week).
2009-2011; 9-1-1 GIS Mapping and Addressing; Rogers County, OK
- 40 Hours per week
- Drove county roads collecting street and structure data to build center line and address point layers for Rogers County. These layers were used for to create the base map for their 911 Telephony and for the implementation of Wireless Phase II.
- Provided wireless testing and provisioning of cell towers.
- Established map page numbering system and built map page layer.
- Teamed with other agencies in the county and surrounding counties to acquire and maintain accuracy of data.
- Synchronized County GIS with the host Telco MSAG 9-1-1 data.

1996-Present; Disaster Mortuary Operational Response Team (DMORT)
Training Officer (GS-11) - Region VI (work hours as required)
Deployments include:
- Peace Officers Memorial in Washington DC
- Joplin Tornado
- Hurricanes Katrina and Rita – Louisiana
- I-40 Bridge Collapse – Webber Falls, OK
- World Trade Center – NYC
- National Emergency Response Center – Rockville, MD
- United Flight 93-Shanksville, PA
- Hurricanes Floyd and Irene-North Carolina
- Oklahoma City Area Tornadoes

As the Training Officer and/or responder to a disaster I wore a variety of hats. You do what is necessary to accomplish the mission. Safety, security, and accountability are a must in any operation. I have:
- Coordinated the ordering of supplies from body bags to refrigerated trucks.
- Arranged transportation of team members from across the country to the deployment site.
- Developed mission related policies and procedures.
- Developed After-Action Reports
- Performed as Safety Officer during field operations.

1996-2010; Dispatcher/Emergency Medical Technician;
Foyil Fire and Med-Tec/Pafford Ambulance Services
- Fire and Medical Dispatcher; part-time – agency discontinued dispatch services
- First Responder on Ambulance in Rogers and Craig Counties
- 20 hours per week

1994-2009; 9-1-1 Coordinator/ 9-1-1 Mapping and Addressing Coordinator/ Dispatcher/Geographical Information Specialist;
City of Tulsa, Tulsa, OK
- Collected Field Data and maintained GIS mapping for Tulsa City/Tulsa County/Catoosa
- Implementation of Phase 1 and Phase II
- 9-1-1 Call Taker, Teletype Operator, and Police and Fire Dispatcher
- Maintained Geographical and Resource Data for CADS
Fire Alerting and Paging Systems
- Address Coordinator for unincorporated Tulsa County & portions of Rogers County
- Disbursed applicable material/resources to proper agencies and provided documents and guidance to CALEA Supervisor for accreditation.
- Member of in-house Critical Incident Stress Management Team (CIRT)
- President, Oklahoma National Emergency Number Association (OklaNENA) and representative on the State 9-1-1 Advisory Board
- MSAG maintenance and synchronization with GIS data for Tulsa/Tulsa County
- 40+ hours per week

1994-Present; Training Officer and Firefighter; Foyil Fire Dept, Foyil, OK
- As a Volunteer Firefighter I work in dangerous conditions, austere and remote environments, and must be physically fit to perform a variety of job requirements. I must routinely lift more than 50 pounds. I must be able to walk long distances. Depending on the type of incident I am constantly bending, crawling, and lifting. I must have stamina for long duration events. This is a physically and mentally demanding profession.
- As a member of the Rescue Task Force, I have performed duties such as caring and/or searching for the sick, injured, dying or deceased victims of man-made and natural disasters.
- Setting up areas for the staging of equipment and accountability systems for all personnel.
- Establishing the infrastructure for our base of operations during long-term events.
- Evaluating field operations after each incident to improve and provide for training opportunities.
- Work as needed

1992-1994; Billing Specialist/Receptionist; Hematology-Oncology Ltd, Reno, NV
- Computer Insurance Billing; Medicare, Medicaid, HMO’s, Indian Health, and Military, following all governmental guidelines. Acted as switchboard operator, daily appointments, screening new patients, record filing, and provided care and comfort and care for patients receiving chemotherapy and radiation.
- 40 hours per week

1991-1992; Account Administrator; Baker-Taylor Book, Reno, NV
- School and Library Accounts - ensured the accuracy of books delivered to schools and libraries.
- 40 hours per week

Washington County Consolidated Communications Agency, Beaverton, Oregon
- Collected Field Data for use on precision address maps
- Adapted existing maps for emergency dispatching
- Maintained records of division dispatch activities
- Coordinated data collection for Computer Geographic Information
- Maintained Police and Fire District changes, annexations, new subdivisions, and fire hydrant locations
- Team member on the Request for Proposal (RFP) for their first CAD
- Trained member of the Logistics Team under the Incident Management System. As a member of the Logistics team I was responsible for providing guidance on logistical management and accountability.
- 40+ hours per week
1980-1986; Business Manager; Control-C Software, Portland, Oregon

- Supervision of Accounting Operations, Sales & Marketing, and Technical Support
- Selection and purchase of office equipment
- Contract negotiations

Summary of Achievements

- Oklahoma State 9-1-1 Advisory Board Current Member
- Oklahoma State 9-1-1 Current Operations Committee Chair
- Arkansas State Mass Fatality Board Member
- Deployment to Travis AFB in support of HHS COVID response
- OklaNENA (National Emergency Number Association) - President
- NJTI-TERT (National Joint TERT Initiative) – Board Member
- TERT (Telecommunicators Emergency Response Team) – State Coordinator
- Tulsa County Sheriff’s Office - Reserve Deputy and Disaster Operations Team Member
- Terrorism Early Warning Group (TEWg?) - Department of Homeland Security Program, administered by the Memorial Institute for the Prevention of Terrorism (MIPT)
- Speaker Chair for Oklahoma’s APCO/NENA Annual Public Safety Conference
- Planning Section Chief and Liaison Officer during Hurricane Katrina
- Family Assistance Center and Information Resource Coordinator for United Flight 93
- DMORT Representative at the National Emergency Operations Center (EOC) in Washington DC during the September 11, 2001 disaster declarations
- Instructor for Oklahoma’s APCO/NENA Annual Public Safety Conference
- Co-Chair for Oklahoma’s APCO/NENA Annual Public Safety Conference

Education

Degree

Northeastern State University
Bachelor of Science in Criminal Justice

Certifications/Licenses

APCO (Association of Public Safety Communication Officials)
Registered Public Safety Leader (RPL)
Communications Center Supervisor Certification

Oklahoma State University
Firefighter I Certification
