REQUEST FOR PROPOSALS

Written proposals subject to the conditions herein stated and attached hereto, will be received at 602 S. Main, Joplin, MO 64801, ATTN: Troy Bolander, until Monday, May 2, 2022, by 5 p.m. Central time for providing the services as described below for the City of Joplin.

DESCRIPTION

The City of Joplin is soliciting proposals from qualified firms with expertise in the areas of stakeholder engagement, telecommunications and information technology, Smart Cities strategic planning project and implementation, federal/state funds management and economic modeling to develop a Fiber Deployment Plan to guide the design, construction, implementation, maintenance, management, regulation, funding of a fiber network backbone, as well as negotiating with ISP providers for access and any other Smart City related technologies in accordance with this Request for Proposal. The City intends to award a Consulting Service Agreement for such efforts. The City is hereby requesting written proposals to provide administration of broadband (fiber) deployment and Smarter Joplin initiatives. The City is requesting professional services to assist in the planning, development, operation and execution of Smarter Joplin broadband and other projects. This shall include technology development and deployment of broadband as a connectivity solution for Joplin, including data analysis, strategic development and planning that focus on resilience, access, affordability and transparency.

The City will receive proposals from Proposers having specific experience and qualifications in the area identified in this solicitation. For consideration, proposals for this project must contain evidence of the Proposer's experience and abilities in the specified area and other disciplines directly related to the proposed service. Other information required by The City may be included elsewhere in this solicitation.

Bidding firms must have a thorough understanding of broadband deployment and federal and state funding opportunities, application processes and any cross-cutting regulations required for the use of said funds.

BACKGROUND

Joplin experienced a devastating E5 tornado in 2011. With the benefit of federal and state disaster recovery funds, the City developed a Capital Plan to address specific recovery projects. An outcrop of those efforts pointed to a need for a resiliency plan for future events. In 2019 the Smarter Joplin Roadmap was developed with considerable stakeholder involvement. Connectivity issues rose to the top regarding access, dependability, speed and affordability. The COVID pandemic hit, and the issues identified in 2019 came to the forefront as the ability to communicate virtually was limited and often inadequate, including educating remotely, providing telehealth, ability to work from home, and conducting business. In 2021, a Broadband Gap Analysis was commissioned and limitations in broadband were specifically identified and solutions offered. Both documents are available on the City of Joplin's website at <https://www.joplinmo.org/1124/Smarter-Joplin>. These documents will serve as references in developing a Fiber Deployment Plan.
