Item 2913, 3615 S. Rangeline Rd.

Mr Mike Patel was present for the meeting as the owner of the property via phone conference. Mr Drew Snider was present for the meeting as he is local and working with Mr Patel on the project. Mr Hartwell starts the item by explaining to the board that we do have Mr Patel on a conference call and asks Mr Patel to explain a little bit about the property. Mr Patel explains that he obtained the property back in 2015 and at that time it was a Holiday Inn. It was his intention to covert the building into a Double Tree by Hilton. We have gone through the design phase with Hilton and the walk through of the building and Hiltons standards increased the
project cost by 115 percent. At that point Mr Patel explains that they turned back to their lenders to get additional funds for the project. The original project cost was around 14 million dollars and now has escalated to 22 Million. We have struggled for the lender to increase the funding and what we did was go back to market and looked for another partner. At this point, we have successfully negotiated with Marriot and we are currently about three weeks out from a full franchise agreement. After that it is roughly another 4-month process of tweaking the architectural plans before we can start the construction of this product. Estimated cost of the project is currently at 22 million dollars. Mr Hartwell thanks Mr Patel for the explanation and asks for more information from the City staff as he knows that the property was subject to a fire in the months past and wants the perspective of the City. Mr Oliver explains that yes there was a fire to the property and Dale Brooks, our Fire Marshal, is present so I’m sure he can elaborate about the fire more. One of the main things that I need is to get the property secured while the details are getting worked out on renovating the structure. Mr Hartwell asks Mr Oliver if he has spoken with anyone regarding securing the property. Mr Oliver replies that he has but just this morning. Mr Oliver explains that he spoke on the phone with Mr Patel, probably, two weeks ago and mentioned the fact that the building needs to be secured. Mr Patel replies that he does understand that the building does need to be secured, he just needs to know the requirements on how to secure it properly. Mr Hartwell encourages Mr Patel to talk with Mr Oliver regarding those requirements to get that completed by the next meeting. Mr Callihan asks Mr Patel to confirm that he is going to be a Marriot Franchisee and they do have funding in place. Mr Patel confirms that is correct. Mrs Mickletonwaite states that the City has had issues in the past with keeping a property secured and wants to know how this property is going to maintain remaining secured. Mr Oliver states that Mr Patel could hire a security company to make sure that the property remains secured after meeting those standards and requirements. Mrs Mickletonwaite states that she wants that plan in place and wants to know detailed information regarding it. Mr Ledford asks Mr Patel if it is a possibility if they can hire a private security company. Mr Patel states that he is willing to hire security. Mr Hartwell asks if anyone from the audience wants to speak regarding this item. Drew Snider was present for the meeting and explains that he is working on a larger 70-acre project right by the item on the agenda and wanted to come to the meeting and state that they are working in conjunction with Mr Patel. Mr Snider states that he understands the City’s concerns and wants to honor those and work in good faith. Mr Snider states that short term goals would be to have the property secured to the proper requirements and long-term goal would be to have the property revitalized and transformed. Mr Callihan asks that Mr Patel to confirm that he said that the construction of the property would be 3-4 months out before it could even begin? Mr Patel states yes, it would be roughly 6 months for us to get with Marriot and have the architecture approved and then submit everything through the building department at the City for their approval. Mr Dale Brooks, Fire Marshal, for the City of Joplin, approached the stand to
Mr Brooks explains that there was a structural fire to the property, and they had a mayday situation as 2 of their firefighters fell in the pool full of water because there was so much smoke that visibility was almost none. Mr Brooks explains that the City has been watching this building for two years. At one point, there was a security guard on site, but that didn’t seem to do much with keeping the vagrants out of the premises. Mr Brooks wants to make sure that Mr Patel is aware that the vagrants that are in the structure have basically stripped the building on the inside and are using it currently as apartment housing. Mr Ledford states that he agrees that 24-hour security is needed. Mr Brooks states that in the very short-term goal that it does need security on site. Neal Robbins states that he was part of the construction crew back in 2016 and even with that crew being present for 40-50 hours throughout the week, vagrants were still a huge issue. Mr Reeder asks Mr Patel when the last time it was that he has seen or walked through the property and when the next time he will be in town? Mr Patel replies that the last time he was on site was roughly 6 months ago and the next time he would be roughly in 60 days or less. Mr Troy Bolander confirms that through the Planning and Zoning department he has been in communication with Mr Drew Snider for months, but he agrees that the number one priority should be to secure the property and keep it secured. Mr Wicklund explains that in a nutshell as far as what the expectations are from this meeting is hiring security, securing all the building, and have a written schedule that has been submitted to the City. Mr Patel agrees that those expectations are reasonable to do in the coming month. Mr Hartwell thanks Mr Patel for being present via the phone conference. Mr Hartwell asks for a motion. Motion to continue till July 24th, 2020 made by Mr Callihan, Second by Mr Ledford. (5 Aye, 0 Nay)
Mr Hartwell asked for a motion to adjourn the meeting. Motion by Mr Ledford, second by Mr Callihan to adjourn the meeting at 10:58am.
