\$5,000,000

Ewert Covered Basketball

\$550,000

Ewert Amphitheater

\$250,000

PARK IMPROVEMENTS

project type

\$5,800,000
total cost

DESTINATIONS

goal

Example Images

Description

Based on the findings and recommendations of the 2021 Ewert Aquatic Center Study, the master plan recommends that the City proceed with design and construction of the following projects:

- Renovation of the existing swimming pool into a splash park with an ice ribbon for winter use.
- Installation of a new covered open air basketball pavilion on the park's north end
- Conversion of the existing basketball courts south of the pool into an amphitheater

The combined effect of these changes will be to transform this aging aquatic center into a more economically sustainable and dynamic community park offering a variety of year-round activities to serve the immediate neighborhood as well as parkgoers across Joplin and the Four State region.

RECOMMENDED PARKS PROJECTS

Ewert Park Kiosk & Interpretive Signage

\$29,375
total cost
