Public Works - Engineering

ATTACHMENTS

CB 2020-116 Ordinance; Work Authorization; Exhibit A – Proposal; Exhibit Map

REVIEWED BY

Director of Public Works – David Hertzberg, Director of Finance – Leslie Haase, City Attorney – Peter C. Edwards, Interim City Manager – Dan Pekarek

SUMMARY

This Council Bill approves a work authorization with Anderson Engineering, Inc. for the Fire Station 1 Concrete Apron Replacement Project in the not to exceed amount of Twenty Thousand Nine Hundred and No/100 Dollars (\$20,900.00).

BACKGROUND

The concrete aprons at Fire Station 1, at the entry and exit of the fire station garage doors, have been damaged over time due to the traffic of the fire trucks. The aprons are in a state currently that could potentially cause damage to the fire trucks and other vehicles that drive over them. The existing concrete aprons and sub-grade are to be removed and replaced.

Anderson Engineering has been chosen to design and oversee this project as they recently were involved in the design and construction of the nearby parking lot for the Justice Center. The services to be provided by Anderson Engineering includes the design, surveying, the preparation of bid documents, and materials. City Staff will provide procurement and construction management and inspection. Also, the current plan is for the City Street Department to prepare the sub-grade for the project.

FUNDING SOURCE

Transportation Sales Tax Fund

RECOMMENDATION

Staff recommends adoption of this Council Bill, approving this agreement and work authorization, on an Emergency basis; being an ordinance relating to a public improvement is an emergency within the meaning of Section 2.12(6) of the HOME RULE CHARTER of the City of Joplin, Missouri and the Council hereby declares that this ordinance shall be in full force and effect from and after its passage. The reasoning for the emergency status is so that this project can be done before or in conjunction with the 2020 Mill and Overlay of which the surrounding parking lot is a part of.
