MEETING

The Airport Board met to discuss how advancements in aviation technology may affect JLN and provide insight on how JLN can prepare for those advancements. Jack Schallar provided an overview of Olsson's current and future involvement of city projects. Mr. Schallar stated airport improvement projects did not compete well against other city projects when evaluating economic development impact.

A handout was provided to all attendees with information from the FAA regarding the new Emerginf Enterants Division, AAM, UAS, investment partners, near term developing advancements, and airport integration. Given the provided information, the airport board discussed what items pertain most to Joplin Airport and what actions the airport should take to be proactive in keeping up with these advancements.

Rob O'Brian, Chairman of the Board
